

Deliverable 4 Meeting Minutes

Meeting 1: March 19

2:00pm - 3:30pm

- Discuss what issues to take on the Pandas repo
 - <https://github.com/pandas-dev/pandas/issues/51364>
 - <https://github.com/pandas-dev/pandas/issues/41837>
- Assigned members to the two chosen issues on Trello board
- Broke down tickets(issues) into subtasks

Meeting 2: April 2

2:30pm - 3:00pm

- Discussed additional testing strategies for to_expr method in Dataframe and Series
- Assigned subtasks related to libjoin parallelization:
 - Developing parallelized version of libjoin: Ali, Leo
 - Testing if new parallelized version has same functionality as old non-parallelized version: Mark, Glenn
 - Initial benchmark testing and performance testing of new libjoin function: Seyon, Daniel
- Aim to have development and testing of new features done by April 5th

Meeting 3: April 5

7:00pm - 7:30pm

- Verified functionality of new features
- Assigned documentation tasks for each ticket

Meeting 4: April 7

7:00pm - 8:00pm

- Created user guides and wrapped up final submission
